5. Firm Firearms Authority Sought

On 4 April Mr. Gambino and
Deputy General Counsel, testified before the Subcommittee on Legislation of the House Permanent
Select Committee on Intelligence in support of
firearms authority being sought by the Agency
through Title IV of the Intelligence Authorization
Bill, H.R. 2827. At the staff meeting,
explained that we need a more precise legal foundation
than we now have to permit carrying firearms to protect
Agency facilities, the DCI and other individuals the
DCI might designate as requiring such protection and
Agency monetary resources. (U)

6. Mileage Reimbursement to Stay at 17¢ per Mile

25X1A

Chief, Administrative Staff, said that GSA has no intention at this time to increase its standard 17¢ per mile reimbursement for official use of POV's despite the fact that they have the option open to them to raise it at any time to 20¢ per mile. Paradoxically, GSA is asking the Office of Management and Budget to consider raising the legal limit to 25¢ per mile. Since the Agency must follow the GSA guidelines, the Office of Security is the feasibility of alternatives such as leased vehicles. In the past, such alternatives have not been well received when proposed to the attractive as the cost of operating a vehicle continues to rise. (U)
